In a last-ditch effort to destroy Fódlan, the cult resurrects Nemesis; Rhea reveals that she is one of the Nabateans, a race of dragons, and that Nemesis was a common bandit who massacred them, created the Heroes' Relics from their bones and hearts, and drank their blood to gain the original Crests. Byleth's role in this war depends on what the player has chosen. Please help improve the page by adding information. Afterwards, Rhea takes them to the Holy Tomb to receive a divine revelation. At the time it was announced without subtitle and was only presented with the broad release date of "2018". However, she suddenly has a draconic degeneration-induced mental breakdown, transforms into a colossal dragon, and goes on a rampage. The Flame Emperor's forces stage an attack on the Holy Mausoleum where Seiros' remains are allegedly stored, but they only manage to uncover a Relic called the Sword of the Creator. Byleth is given the choice of teaching one of three classes, each of which features characters from one of the three major countries. Now the ruler of a united Fódlan, Edelgard begins her sweeping reforms of the nobility and the Crest system and begins a silent war against "those who slither in the dark". Dismounting can be used to alter a unit's stats or avoid effective weaponry and inimical terrain. Reuniting with Claude and the former Golden Deer, the two form a proper Alliance army and vow to defeat the Empire. Chapters Main article: List of chapters in Fire Emblem: Three Houses in Three Houses each standard chapter consists of one calendar month in the game. See the etymology and other languages section below for details. During this time, they come to blows with forces conspiring against the Church, including "those who slither in the dark" and a masked individual calling themselves the Flame Emperor. It was also decided from the start that only the Black Eagles would have a hidden story branch due to the nature of Edelgard's character opening the possibility of having two stories rather than just one.[5] In another interview with Nintendo Dream, it was revealed that Part 1: White Clouds and the Silver Snow route were created first with the intention both would serve as the basis for worldbuilding, with Koei Tecmo's scenario team opening up later the subsequent routes and lords' stories. The five travel to the Officers Academy at the Garreg Mach Monastery, where Byleth is offered a position as a teacher and Jeralt resumes his former post as a high-ranking member of the Knights of Seiros. Fledgling development continued alongside Shadows of Valentia while Three Houses was being moved to the Nintendo Switch, and development began in earnest once Shadows of Valentia was released. European Limited Edition promotional image. Golden Deer - Verdant Wind If Byleth is a member of the Golden Deer, they awake to discover that Rhea has vanished. Fire Emblem: Three Houses (Japanese: ファイアーエムブレム 暁花残月 Fire Emblem: Wind, Flower, Snow, Moon) is a turn-based strategy role-playing game for the Nintendo Switch. Battalions Main article: Battalion New to the series, units are now able to equip battalions, groups of generic characters, to accompany them in battle. During the reveal trailer they revealed that the game would release in Spring 2019, marking a delay from its initial 2018 release window. World map Main article: World map Once again a form of the world map returns as a feature, however it is closer to Fire Emblem Fates's version of the world map, where it instead serves as a background for the game's chapter select. After Byleth has taught there for a year, Adrestia's newly crowned emperor Edelgard von Hresvelg launches a full-scale invasion of the monastery with the intent to remove the influence of the Church of Seiros, and also has the goal to conquer Faergthus and Leicester and unify the continent. This game is set on the continent of Fódlan, which has three major powers: the Adrestian Empire, the Holy Kingdom of Faergthus, and the Leicester Alliance, at the center of which lies the Garreg Mach Monastery, which is the headquarters of the Church of Seiros, a religious organization which has a major influence in Fódlan. The Officers Academy, housed within Garreg Mach, allows the player to set up teaching schedules and goals for their chosen house. However, the fort is destroyed by ballistic missiles that the Resistance refers to as "javelins of light". During the weekends, when the player is not teaching, the player may freely walk around the grounds to speak with students, give advice, plan meals, or partake in battles. "Three Houses" redirects here. The player takes control of Byleth, son or daughter of the renowned mercenary Jeralt Eisner, and is assigned to work as a teacher at Garreg Mach. At Gronder Field, Claude defeats both Edelgard and a deranged and vengeful Dimitri; Dimitri is killed by imperial troops afterwards in an attempt to pursue Edelgard. Development In a Famitsu interview around the game's release, it was revealed that the game concept began development around the time Fire Emblem Fates released; while the initial plans were to release the game as a 3DS title, the development was put on hold once it was decided the next game would be a remake of Golden Deer, which later became Echoes: Shadows of Valentia. This combination of characters is used when describing the beauty of the four seasons in a poetic fashion.[10] It is rearranged compared to the poem and adds wind as the summer aspect, which is not present in the original poem. First, the group conquers the Alliance capital of Dordriu and either executes Claude or forces him into exile. It is an ability granted from Sothis to Byleth. Afterwards, Edelgard's vassal Hubert posthumously informs them about the ones responsible for the destruction of Fort Mercus and much of the tragedy that has plagued Fódlan, a cult called "those who slither in the dark". Broken weapons can be taken to the blacksmith to be repaired at the cost of crafting materials. Claude continues the assault on Adrestia, and conquers Fort Mercus. After receiving reinforcements from Dimitri's ally Rodrigue, the Kingdom begins an invasion of Adrestia. Japanese Fódlan Collection edition promotional image. Alternate version of Japanese logo. Right before the empire begins their invasion of Faergthus, the Church attempts to retake Garreg Mach in a surprise attack which ends up foiled and with Seteth and Flayn either slain or spared in the process. The world map is not directly explorable like the ones in Fire Emblem: The Sacred Stones, Fire Emblem Awakening, or Fire Emblem Echoes: Shadows of Valentia. Cornered, Edelgard transforms herself into a monstrous abomination, but is ultimately defeated by Dimitri in a final battle. During weekdays the player spends time teaching their students; on weekends, the player can, as mentioned above, wander the grounds or begin battles. Nothing of the game was shown during its initial announcing except for a generic Fire Emblem logo. Combat arts Main article: Combat art Combat arts make their return from Echoes: Shadows of Valentia, however they are slightly different. Edelgard then resumes her invasion of the kingdom by seizing Arianrod in a surprise strike, taking down the generals guarding it as well as Cornelia, an undercover agent working for "those who slither in the dark". Unlike previous games, it is not required in indoor maps. At Gronder Field, Imperial forces kill Dimitri and drive Claude into hiding. The Resistance besieges their fortress, an underground city called Shambhala, and kills their leader Thales. Alternate version of Japanese logo. Different battalions give different benefits and also allow access to new abilities. Several characters in the game, descended from historic heroes, possess crests that grant them particular abilities during combat such as increased damage or ability to nullify counterattacks. Dismount Main article: Dismount Dismount marks its return to the Fire Emblem series with this game. For the chapter, see Three Houses (chapter). Blue Lions - Azure Moon If Byleth is a member of the Blue Lions, they awake to discover that Rhea has vanished and Dimitri has been forced into exile in the Garreg Mach region and has been driven mad by his desire for revenge against Edelgard. During an attack by Demonic Beasts on a chapel on monastery grounds, Jeralt is murdered by an assassin named Kronya working for "those who slither in the dark". The name of the Seasons of Warfare limited edition of the game appears to be in reference to the game's Japanese title. German Fire Emblem: Three Houses As above, 29 of these units are fully available in Silver Snow, 32 are available in Azure Moon, 30 are available in Verdant Wind, and 28 are fully available in Crimson Flower. Upon learning that Byleth can wield the blade, Archbishop Rhea entrusts it to them. However, the fort is destroyed by ballistic missiles that the Alliance refers to as "javelins of light". The Flame Emperor and their troops invade the Tomb and engage Byleth in battle, and over the course of the battle they are unmasked as Edelgard. It is a feature that hasn't been seen in a Fire Emblem game since Fire Emblem: Thracia 776, twenty years prior. Otherwise, they remain allied with the Church by default. Australian logo and box art. Claude disbands the Alliance, places their former territories under Dimitri's governance, and departs Fódlan. Characters can freely reclass between any class they have unlocked. Afterwards, Claude founds the United Kingdom of Fódlan to unite the continent under Byleth's rule. Viewing available activities in the calendar. Dimitri makes one last attempt to reconcile with her, but she attacks him with a dagger, so he stabs her in the heart. The theme of the Azure Moon route, by contrast, had the notion of being the "righteous" route where, after some unfortunate circumstances, Dimitri would eventually awaken and realize what is true "righteousness"; that way, the Crimson Flower and Azure Moon routes would work as the antithesis of each other, creating a paradoxical conflict between them.[7] Lastly, the Verdant Wind route started with the notion of Claude learning how to oppose xenophobic worldviews for the benefit of his homeland.[8] Pre-release Main article: Fire Emblem: Three Houses pre-release information The game was initially announced early in 2017 on January 18th in the Fire Emblem Nintendo Direct. References 1 File:FETH seasons of warfare edition.jpg 1 Nintendo. Nintendo Direct 2.13.2019. YouTube. Published: February 13, 2019. Edelgard then escapes and declares war on the Church and its allies and besieges Garreg Mach. Afterwards, Fódlan is united under Dimitri's prosperous rule. Japanese ファイアーエムブレム 暁花残月 フカセツ Fire Emblem: Wind, Flower, Snow, Moon. North American logo and box art. Crimson Flower If Byleth sides with Edelgard, they awake to discover that Rhea has taken sanctuary in the Kingdom capital of Fhirdiad and that Adrestia is locked in a stalemate with Faergthus and Leicester. After receiving reinforcements from Lady Judith of Daphnel, the Alliance begins an invasion of Adrestia. By admission of the developers, the game ended up twice as big content-wise compared to the initial projection.[4] In a subsequent Famitsu interview, it was mentioned the direction each house would take character-wise was planned from the beginning of development; the Black Eagles would have more "challenging backgrounds", the Blue Lions would be more "traditional characters" and the Golden Deer would be "full of misfits". Byleth chooses one of the three lords to take charge of and spends the next year teaching them the ways of battle and going on missions for the Church of Seiros. Byleth

pursues Kronya and slays her, but is trapped in a realm of ally Solon. In order to take an examination, the character must spend an exam pass, which can be increased through their abilities. English(unofficial) Fire Emblem(Switch) The tentative title used in the game's initial reveal in 2017. The main basis for the Silver Snow route was chosen to be about Byleth having to fight against Edelgard as their former house leader, during its development however, staff from Koei Tecmo voiced their desire to join Edelgard instead, which resulted in the requirements for accessing the Crimson Flower route becoming easier to grasp, as there weren't any clues hinting an exploration event could lead to a route split initially.[6] The theme of the Crimson Flower route was chosen to be "military rule", achieving your own beliefs and values at the expense of the well-being of whoever stands in your way, even if they once used to be cherished. Reuniting with Rhea's second-in-command Seteth and the former Black Eagles, the two form a Resistance army and vow to defeat the Empire. The "Seasons of Warfare" name was also used as a translation of the Japanese subtitle in the name of the main theme, The Edge of Dawn (Seasons of Warfare), and in the name of the opening movie. Reassessing his priorities and vowing to atone for his sins and become a worthy king, Dimitri doubles back to Fhriadiad and wrests it from Imperial control. Dimitri then launches a proper invasion of Adrestia and conquers the Imperial capital of Enbarr. Plot The game features four main characters: Byleth, the playable avatar unit, and the leaders of the titular three houses, Edelgard, Dimitri, and Claude.[3] Byleth, after arriving at the Garreg Mach Monastery and given a teaching position, chooses one of the three houses to teach; this choice will have ramifications for both students and teachers down the road. The Imperial forces pursue her to Fhriadiad, where she orders the city burned and transforms into a dragon in a mad attempt to kill Edelgard, but Edelgard emerges victorious and slays Rhea. Sothis speaking to Byleth. Additionally, the game is divided into two parts: Part I possesses 12 chapters, including the prologue, while Part II possesses 9 chapters on the Silver Snow route, 10 chapters on the Azure Moon and Verdant Wind routes, and 6 chapters on the Crimson Flower route. North American Seasons of Warfare edition promotional image. Outside of the initial 35 units, Anna, Yuri, Balthus, Constance and Hapi can be recruited in all routes via the Season Pass DLC. The Adrestian forces win the battle, and Byleth vanishes and falls into a five-year coma. Spanish Fire Emblem: Three Houses As above. Part I: White Clouds After a vision of a battle between Nemesis and Seiros and a meeting with an amnesiac girl who eventually identifies herself as Sothis, a mercenary named Byleth and their father Jeralt rescue three nobles from an attack by bandits; Edelgard, Dimitri, and Claude. After another lengthy absence the game resurfaced again in February 2019 during Nintendo's Nintendo Direct presentation and received a story trailer and confirmed release date of July 26, 2019, marking another, though much smaller, delay, from spring 2019 to early summer 2019. No further details were given on the game for over a year until a reveal trailer aired at Nintendo's 2018 E3 showing on June 12th. There is also a new stat called "Charm" (Japanese: 魅力 charm), which controls the unit's capability with Gambits. It's international title of "Three Houses" came from the motif of the Romance of the Three Kingdoms being used for the composition of the titular houses, a title which wouldn't work as effectively in Japan when translated. The Japanese title of the game was decided late into development; since there would be four main characters, the developers chose to use a 4 character idiom for the game's subtitle: "風花雪月", translated as Wind, Flower, Snow, Moon, representing the four passing seasons. The game brings back the durability attribute of weapons after its absence from Fire Emblem Fates and Fire Emblem Echoes: Shadows of Valentia. Characters have affinity towards and against certain classes. Edelgard and her elite forces then proceed to defeat Rhea and kill Dimitri on the Tailtean Plains, forcing Rhea (revealed to be Seiros) to retreat to Fhriadiad. My Nintendo desktop wallpaper showing Edelgard My Nintendo smartphone wallpaper showing Edelgard My Nintendo desktop wallpaper showing Dimitri My Nintendo smartphone wallpaper showing Dimitri My Nintendo desktop wallpaper showing Claude My Nintendo smartphone wallpaper showing Claude Screenshots Selecting the protagonist's form. He then marches to Derdriu and reinforces Claude, driving the Empire out of Leicester. Characters Main article: List of characters in Fire Emblem: Three Houses Between all four routes, there is a total of 35 playable units, one of which was added for free with the Wave 3 DLC. The Alliance defeats Nemesis in a final battle. At Gronder Field, Dimitri defeats Edelgard and forces her to retreat, and he is subsequently attacked by an Imperial General's sister, as revenge for Dimitri slaying the general. Reuniting with the former Blue Lions, the two form a proper Kingdom army and vow to defeat the Empire. Main article: Crests Crests are a new unit attribute introduced in the game, akin to Holy Blood from Genealogy of the Holy War. Garreg Mach Monastery Main article: Garreg Mach Monastery The Garreg Mach Monastery serves as the game's "hub" throughout most of the game. The game also had influences from Fire Emblem: Genealogy of the Holy War, as there was interest in exploring aspects of characters studying from an Officers Academy, showcasing the passage of time, and how people would become friends and then be reunited as enemies in war. In order to release a Fire Emblem game on the switch prior to the end of 2019, another development team was deemed necessary, and Koei Tecmo was asked to be involved with the development due to already working jointly with Intelligent Systems on Fire Emblem Warriors. Traditional Chinese Fire Emblem 風花雪月 Fire Emblem Wind, Flower, Snow, Moon; similar connotation to Japanese. In retaliation for Cornelia's demise, the cult incinerates Arianrhod with a ballistic missile. Simplified Chinese Fire Emblem 风花雪月 Fire Emblem Wind, Flower, Snow, Moon; similar connotation to Japanese. These four words are used in the names of the four different versions of Part II.Note: in the Switch UI, the game is referred to with "Fire Emblem" written in English instead of in katakana. It, on the surface, can be likened to My Castle in Fire Emblem Fates, however it is far larger and has more features. Rhea reveals that she is one of the children of the goddess and that Byleth is the ultimate product of her millennium-long efforts to resurrect her mother Sothis. Additionally, when weapons break they stay in the unit's inventory in their broken state instead of vanishing. Byleth continues the assault on Adrestia, and conquers Fort Merceus. Sales As of December 31st of 2020, Three Houses has sold 3.40 million copies worldwide, with 580,000 copies sold domestically in Japan.[9] Trivia Three Houses is the first mainline Fire Emblem game to have a single, worldwide release date. The Resistance storms Enbarr, kills Edelgard, and rescues Rhea. The Resistance defeats Rhea in a final battle. It is the sixteenth main installment in the Fire Emblem series, the first for the Nintendo Switch console, and it was released on July 26, 2019 in all regions. Korean Fire Emblem Wind, Flower, Snow, Moon; similar connotation to Japanese. Rodrigue sacrifices himself protecting Dimitri. Classes Many characters start in the mechanically identical Commoner or Noble classes and may change classes upon reaching level 5; doing so does not reset the character's level. Game credits Main article: Staff of Fire Emblem: Three Houses Reception This section has been marked as a stub. Gameplay Unit attributes Crests Byleth's crest activates during battle. There are also 26 paraloques available: Part I possesses 15 paraloques, while Part II possesses 13 paraloques. Additionally, combat arts are learned as the unit becomes more proficient with certain weapon types, instead of being learned from and connected to specific individual weapons. Afterwards, Byleth unites the continent and becomes the first ruler of the United Kingdom of Fódlan. Alternate version of Japanese logo. Stats Characters possess the standard set of stats the Fire Emblem series is known for. Koei Tecmo was left mostly in charge of the game's development, as Intelligent Systems reportedly only provided a minimum staff of designers, music composers and programmer advisers. Etymology and other languages Names, etymology and in other regions Language Name Definition, etymology and notes English Fire Emblem: Three Houses Three Houses appears to refer to the three houses that students of the Officers Academy at the Garreg Mach Monastery are sorted into: the Black Eagles, Blue Lions, and Golden Deer. Any class can use any weapon, but certain classes specialize in certain weapons. Japanese logo and box art. Byleth's return tips the state of the war decisively in Adrestia's favor. After receiving reinforcements from Lady Judith of Daphnel, the Resistance begins an invasion of Adrestia. French Fire Emblem: Three Houses As above. Bernadetta preparing to attack an enemy. Sothis sacrifices herself to imbue Byleth with her full power, and Byleth escapes and kills Solon. Unlike their first appearance, they no longer cost HP and instead consume multiple points of durability of the weapon used to perform the art. Full box artwork of the Japanese limited edition. The Alliance besieges their fortress, an underground city called Shambhala, and kills their leader Thales. On the last weekend of every month there is a mandatory battle serving as the ending of the chapter and progression to the next. Part II Black Eagles If Byleth is a member of the Black Eagles, witnessed Edelgard's coronation as Emperor of Adrestia, and chooses to protect her, they may defect to her side. Italian Fire Emblem: Three Houses As above. The Alliance storms Enbarr, kills Edelgard, and rescues Rhea. Byleth also eventually learns that Sothis is the name of the goddess of Fódlan. Main article: Calendar The calendar is a system used to visualize the course of a single chapter in the game. Lastly, the Cindered Shadows side-story possesses 7 chapters. Divine Pulse Main article: Divine Pulse Divine Pulse is an old feature with a new name; similar to Mila's Turnwheel, it allows the player to rewind their actions during battle. Silver Snow If Byleth sides with the Church, they awake to discover that Rhea has vanished.
